

Do You and Your Friends Want to Go to College?

Mayor Giuliani Wants to Make It Harder for You to Achieve Your Dreams

Unless you are rich, there is a good chance you are thinking about going to CUNY. Every new student entering CUNY must take a test to see if they have the reading, writing, and math skills they will need for college. Anybody who doesn't pass this test has to take remedial classes to bring their skills up to college level. This January the CUNY Board of Trustees, under pressure from Mayor Giuliani, voted to eliminate ALL remedial classes at ALL of CUNY's 4-year colleges and to bar entrance to the 4-year colleges to any incoming students who need to take remedial classes. **This means that most New York High School students currently planning to attend a CUNY 4-year college would not be admitted!**

With cops shooting people like Amadou Diallo down in the street, new prisons being built, and college doors being slammed in our faces, the time has come to do something to defend our future. Nobody else will do it for us.

Its Not Too Late to

Stand Up for Your Right to an Education!
