

PROTEST DAY IN NEW YORK

APRIL 15

The last three years in New York City have been pure hell for the Puerto Rican and Latin Working class community. We have suffered mass layoffs, while also confronting a spiraling inflation, that has left way behind lost hospitals, schools, daycare centers, and service programs in all our communities. Our rents are going up, our housing conditions are getting worse, and our utility bills (especially Con Edison) are zooming. In the midst of all these conditions, it is a joke to talk about the progress of our people. We are asking you to join us in building this day, which will mark the inauguration of a new UNITY, a new Determination, and a new strong force. Please contact us as soon as you are able to. Telephone # 588-3476 (Ramon Jimenez Or 960-1149 (Nilsa Saniel)
