

We can win! Your involvement is crucial!

Governor Cuomo and his administration's proposed \$500 tuition increase, \$96 million in budget cuts, \$400 cuts in TAP and faculty and staff layoffs will have a devastating effect on CUNY. At the same time that funds are being cut for education, the same politicians are willing to spend billions fighting wars abroad.

If we allow them to pass this proposal, thousands of students will be forced out of a higher education. Access to education will be denied to African Americans, Latinos and working people; education will become a privilege for the wealthy few in coming generations rather than a right for all people.

We have no choice but to fight and win! If we don't speak out now attacks on education will continue in the future!

Despite efforts to confine the movement from CUNY and government administrators, our movement is growing and getting stronger. We are already in the third week of the struggle and will continue until they meet our demands: no increases, no cuts, no layoffs!

Your involvement and participation is crucial. It is your struggle. We need more support to obtain our objectives sooner than later. We need your creativity and your suggestions.

Daily mass general assemblies are taking place in CCNY every day at 6:00 p.m. in which we discuss and resolve the situation in the CUNY system and make collective decisions in activity, our strategy and tactics and on which way forward will fight and win.

Your support and participation at the assemblies is crucial to win our just struggle! Your involvement in a long term fight to regain free education at CUNY it is also very important! JOIN THE STRUGGLE NOW!

NO INCREASES! NO CUTS! NO LAYOFFS! TAX THE RICH!
