Subject: Semester Info: Update 6.5

Dear Art Department Faculty,

Please plan to move forward with your course continuity plans – the course change proposals that you submitted. There are so many that the Dean and I cannot get through them all – consider them approved.

CUNY Central, the Provost, and the Dean encourage everyone to administer some sort of assignment to your students as soon as courses resume Thursday. The idea is to let the students that “this is real” and they need to complete their coursework for the semester.

For those of you planning to meet with students in class or are requiring students to use Klapper facilities, I met with the staff today to determine days and opening access hours for the remainder of the semester. This information will be posted on our website shortly. Also, and very importantly, you must put in place a Plan C should the mayor and/or governor declare a “shelter in place” for all NYC folks. This means that the campus will close entirely.

Mike
