

The Library Department
Paul Klapper Library

TO: THE PROFESSIONAL STAFF

The following resolution was passed yesterday by an impromptu group representing more than a majority of the academic department at the College:

Resolved that each department elects three representatives, one by the full time faculty, one by the graduate students and one by the undergraduate students, to meet with similarly elected representatives of other departments and choose a smaller sub-committee to meet with the Administration and work out a proposal within 12 to 24 hours, to be voted upon by the whole college within 48 hours in order to resolve the serious problems facing the college.

Since we do not have students in the Library Department, we were asked to elect an untenured and a tenured representative. The main purpose is to gather as broad a based representation of the majority as possible to try to bring together the dissident student groups and the Administration.

Therefore, will all interested faculty members of the Library Department meet today, 15 April 1969, at 9:30 a.m. in room 222 in Klapper to do this.
