

Asian American Studies Program

October 13, 1993

Dear Friends,

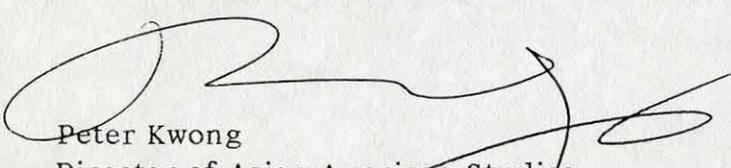

Hunter College has established an Asian American Studies program this Fall -- one of the first on the East Coast -- as a direct result of persistent demands from the Asian American students and the community. Mindful of its debts to the community, the program intends to serve it.

As a means to carry out this goal, we are inviting you to join the Asian American Studies Community Advisory Board. Its purpose will be to advise the Program of ways to develop meaningful and realistic projects to benefit the community. In the meantime, we ask you to be an advocate in the community for the growth of our program.

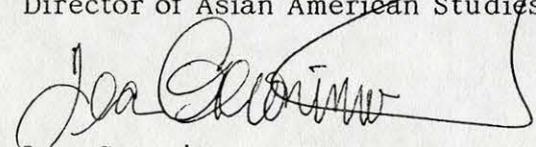

The first Advisory Board meeting will be on Friday, October 29, at 6:00 pm in Room 217 Hunter West. We hope you will accept our invitation and attend the founding meeting. R.S.V.P: call (212) 772-5559.

Thank you for your support.

Sincerely yours,

Peter Kwong
Director of Asian American Studies

Lea Geronimo
Co-President of the Asian Pacific Students Alliance
